Tempe Neighborhoods Together (TNT)

Statement of Purpose

The mission of Tempe Neighborhoods Together is to create an independent group of elected leaders dedicated to enhancing/developing our neighborhoods through a dialogue with the Tempe City Council and their staff.

In 2013 we began as a small discussion group of Neighborhood Associations and Home Owner Association elected leaders to:

1. Share information and history
2. Create a forum for the discussion of common issues, concerns and interests
3. Create an alliance in the pursuit of common interests thereby increasing our effectiveness and achievements

Our Role with Government

We function as an independent entity to increase and enhance our working relationship with the City of Tempe to:

1. Formulate and articulate to City Council and Staff our neighborhood concerns and solutions
2. Seek to generate with City Council a two-way system of communication assuring both parties' mutual interests are accounted for in the development of ordinances, policies, and procedures which may impact our neighborhoods
3. Develop a coordinated working relationship with the Tempe City Council to address issues and statutes as they are developed in the Arizona State Legislature

Recent Goals and Objectives

Over the past several months Tempe Neighborhoods Together (TNT) have been active in efforts to:

1. Strengthen Code Compliance
2. Support fellow associations in their efforts to limit and monitor high density development projects
3. Assist neighborhood efforts to activate and strengthen their associations
4. Work with Tempe City staff to increase effectiveness of the Character Area process
